

BATTERY POWERED TOUCHLESS ACTUATOR

Part#: BEA10MS51W-D
BEA10MS51W-S

BEA's MS51 is a long-lasting battery-powered, active infrared touchless actuator that reduces wiring and provides flexible mounting options. It may be hardwired or connected to wireless transmitters. This solution boasts superior battery life with three years of uninterrupted operation across a range of applications and environments. LED alerts indicate battery status for easy maintenance.

BEA's MAGIC SWITCH line of touchless actuators provides germ-free door activation without physical contact for safer interactions, improved traffic flow, and enhanced accessibility. They are available in a variety of popular design options, including accessibility artwork.

Best-in-Class Battery Life
3-year battery life provides uninterrupted operation in the field

Easy Installation & Setup
Quick push-plate retrofit reduces installation time and cost Three-step process simplifies installers time in the field

Robust Construction
Stainless steel faceplate and IP65 rating for harsh environments

Reduce False Detections
Built-in redundant sensor ensures consistent detection in the event of environmental interference such as window pollution
