# CX-EPD1289L

## Surface Mount Preload Rim Strike

Camden introduces the first surface mount rim strike with preload in the security industry. CX-EPD1289L grade 1 surface mount RIM strike, with latch monitoring, also offers a 'Universal' strike design that delivers unparalleled application flexibility, with both UL security and fire listings. Preload is pressure exerted on the keeper of a strike that causes the mechanism to fail to release. Whether caused by air pressure, a misaligned door, or inexact installation, CX-EPD1289L rim strikes are designed to operate where other strikes fail!
