

NOXACBX-B30W-SC1 (Cylindrical)
NOXACBX-B30W-SM1 (Mortise)
NOXACBX-B30W-SR1 (RIM Exit Device)

ACCESS CONTROL IN A BOX

INOX Smart System has everything you need in a box to add Access Control to your existing hardware. Choose from 3 kit configurations for Cylindrical, Mortise or RIM Exit Device. Each kit includes an ANSI Grade 1 universal strike, power supply, wood/metal door position switch, gateway and reader controller unit to verify credentials. These different types of kits allow for retrofitting options for existing locks and allow you to convert a mechanical lock into an electrified lock with monitoring capabilities.

- Cloud-based smart management that is easy to set up -no servers are required
- Supports remote access management (Gateway, Bluetooth, Wi-Fi) that allows for locking/unlocking
- RFID Register, Enrollment Device for 13.56MHz RFID FOB, Card and Wristband
- Set up 4, 6, or 8 digit passcodes by Smart App
- Supports 1000 Mobile Users and 1000 RFID or Passcode
- INOX Smart supports a large variety of hardwired and battery-powered devices for different openings
