

Part Number:
LCN6440

LCN 6440 COMPACT AUTOMATIC OPERATOR

LCN

Simple and Intuitive Design

- Compact low energy automatic operator that is surface mounted
- Motor drives open 4040XP mechanical closer
- Motor connects to mechanical closer with 4 screws

Cost Effective Solution for Interior Openings

- Designed to reduce complexity of installation & maintenance
- A fraction of the cost of a traditional automatic operator
- Ideal for restrooms & other non latching interior doors

Performance You Can Trust

- Leverages 4040XP mechanical closer
- ANSI/ BHMA 156.19 certified
- Easily replaceable Compact Module (Motor Gearbox / Controller Board)

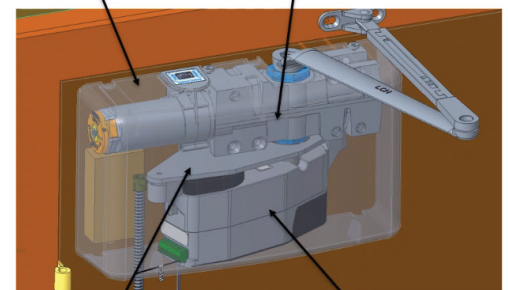

Features

- Motor gear box mounts directly onto a standard 4040XP mechanical closer with just 4 screws. [Door mount for regular and parallel arm, frame mount for top jamb]
- 4040XP controls the closing of the door and can be adjusted via main and latch valves.
- The intuitive user interface allows you to set opening speed used in the main door open zone, power boost and hold open time
- Configurable power capabilities to allow for simple wall plug-in or external Power Supply
- Certified to UL 228 & 325, ANSI A156.19, ANSI A117.1

Benefits

- Ease and simplicity of install
- Can accommodate low ceiling clearance
- Leverage existing knowledge of 4040XP
- Standardization for ease of maintenance
- Initial calibration and programming is quick and easy with visible and audible feedback
- Modular solution enables you to configure as needed for desired application
- Performance you can trust
- Peace of mind
