

The Schlage NDE wireless cylindrical lock is designed to affordably extend electronic access control deeper into the building beyond traditional perimeter and high security openings. And now Schlage offers the NDEB wireless lock with a mobile enabled option that gives users the security and convenience of using a smart device to gain access.

**The new NDEB mobile enabled wireless lock has an interior push button with indication that expands the way the lock operates to include storeroom, office, privacy and apartment functions.**

### Features and Benefits

- New NDEB option is ready for the future with the ability to read Bluetooth and NFC mobile credentials
  - Supports Mobile Student IDs in Apple Wallet (NDE and NDEB)
- NDEB includes interior push button with indication for storeroom, office, privacy, and apartment applications
- Wireless configuration from connected smartphones and tablets
- Built-in Wi-Fi enables automated daily updates sent directly from host software
- Networked real-time communication available with the ENGAGE Gateway and PACS provider solutions
- Fits mechanical ND door prep with minor modifications
- Weather resistant design for use on perimeter doors
- Up to 2 years of battery life
