

GAS UP

WITH POWERPLEX, SIMPLEX AND E-PLEX

dormakaba 

Receive a \$20 or \$10 Gas card for each Simplex, Powerplex or E-Plex lock purchased in May and June 2024.

\$20 Gas Card applies to:

Simplex 1000 Series, Simplex 5000 Series, Simplex EE1000 Series, Simplex LP1000 Series, Simplex L1000 Series, E-Plex 2000 Series, E-Plex 5000 Series, PowerPlex 2000 Series

\$10 Gas Card applies to:

Simplex 3000 Series, Simplex 7100 Series

Simplex locks are offered in mortise, cylindrical, dead bolt, tubular, and mechanical pushbutton lock styles. All locksets meet the security and safety requirements of commercial and institutional doors. Door locks come in a range of functions, finishes, trim, and keying options.

The **PowerPlex** Series utilizes new capacitor technology to store power longer and more efficiently. There is no handle pumping required to wake up the lock and the built-in super capacitors will hold a full charge for up to 10 weeks with no activity at the lock.

The **E-Plex** series of locks creates a range of system options. Many E-Plex series locks do not require software, but dormakaba's free E-Plex software download can increase system control and expand the user's lock management options.
